Forecast for Tuesday 13 Apr 2021

Weather: Chilly but dry overnight with largely clear skies. Through the morning the weather will be fine and dry with variable amounts of cloud. In sunny spells it will feel warm with a medium risk of strong sunlight. Though by lunchtime some rain showers will develop across the region, with conditions clouding over more in and around these isolated showers. Away from any rain, sunny spells will continue through the afternoon. Dry by the evening with further clear spells overnight and fog developing in valleys after dusk.

Chance of cloud free mountain/hill tops above 600m: 60% becoming 90% by mid-afternoon.

Visibility: Visibilities will be good, becoming very good throughout the day as cloud bases lift from 600-900m in the morning to above 900m by mid-afternoon. In and around showers visibilities will temporarily deteriorate as cloud bases drop to 800m. Visibilities may also become poor in fog in valleys from dusk onwards.

Meteorologist's View

Although it will be predominantly dry and bright it will still feel cool when there is more cloud cover. However, the sun will feel strong when it does shine so wear sun protection.

Recent rainfall: measured at Neuadd: altitude 353m

14:00 on Mon 12 Apr 2021	0.8mm	1.4mm	1.6mm

Forecast for Wednesday 14 Apr 2021

Weather: A cold start with some fog patches in valleys, though these will clear quickly through the morning. Then, a bright day with sunny spells. In the afternoon skies will likely become cloudier with the odd isolated shower developing. Further clear spells expected by the evening and overnight.

Maximum wind: North-easterly 8mph gusts of 15mph.

Chance of cloud free mountain/hill tops above 600m: 100% becoming 80% by lunchtime.

Visibility: Visibilities will mostly be very good through the day, though it will be poor in any fog to start. Some temporary deteriorations likely in the afternoon in and around showers as cloud bases fall to 700-900m.

Temperature: **Valleys:** Plus 1 Celsius becoming Plus 10 Celsius.
At 600m: Minus 1 Celsius becoming Plus 4 Celsius.
Freezing level: 1000m
